EDUCATION

KSRM college of engineering

Electronics and communication engineering B.TECH

CGPA: 8.1

Kadapa, YSR, Andhra Pradesh, IND

November/2022 - May/2026

Narayana olympiad college

MPC Intermediate

Percentage: 74%

Kadapa, YSR, Andhra Pradesh, IND

June/2020 - March/2022

Nagarjuna E.M.High school

Degree in SSC

GPA: 9.5

Kadapa, YSR, Andhra Pradesh, IND

SKILLS

Programming Languages: Python, C
Tools / Platforms: Github, Git
Databases: SQL

PROJECTS / OPEN-SOURCE

Comparative of SRAM using CMOS&FINFET technology and enhanced write capability of data *CMOS&FINFET*

- Designed and simulated 6T, 8T, 10T, and 16T SRAM cells using Cadence Virtuoso.
 - Evaluated SRAM performance by analyzing power consumption, propagation delay, read/write stability, and noise margins.
 - Compared CMOS and FinFET technologies to identify the most efficient architecture for low-power, high-performance memory applications.
- Enhanced knowledge of VLSI design, transistor-level circuit analysis, and semiconductor technologies.

Pill Reminder & E-Commerce Web Application

Flask(Python),HTML/CSS

- Developed a full-stack web application integrating medicine reminders with an e-commerce platform.
- Built secure user authentication and role-based access control.
- Performed CRUD operations

CERTIFICATIONS

- SQL Basics Course - Newton School.
- Certificate of Graduation Python - Prepinsta.
